Lipton Cup Fund \$742.05.

If the other newspapers of New York have done half so well the aggregate is a respectable amount, and by the time rhe subscription is closed the handsomest cup in New York should be within the purchasing power of the committee.

Sit Thomas Lipton has, as he himself says, won a more valuable prize than the America's Cup he came for—the respect and affection of the American people.

This cup that is being so spontaneously subscribed for is the Yankee tribute to a "good loser," it is a token of admiration for a gentleman and a sportsman, who, by his example, has upbeid the best traditions of yach racing.

"Subscriptions to the Lipton Laving Cup Fund," said John N. Beach to a Journal reporter yesterday, "are coming in so fast and from so many sources that it is impossible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate, yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate yet of sible for us to make any estimate and the Union Steamboat Canai Line and the Union Steamboat Canai Line and the Union Steamboat Canai Line and the Union Steamboat Cana
